FROM THE "SCIENCE OF HEALTH."

OPEN FIRES.—In every home there should be at least one open grate, or some other arrangement for burning wood or soft or hard coal. A fire which can be seen as well as felt—a cheerful, bright, blazing fire, with shovel and tongs—and fender, too, if you please—which will attract the family by its social influences, is a grand thing in a home. Those black, grim, tartarean flues, filled with the stale odors of cellar and hot air-chamber and seething water-tank, and emitting clouds of pulverized ashes to cover your furniture and stifle your lungs, are among the greatest banes of family enjoyment and comfort. It is all well enough to have one's dwelling warmed from top to bottom, and to have no coals to carry beyond the furnace, but this heating system has done immense mischief to the family powers, scattering the members of it all over the house, and furnishing not one attractive spot in which the inmates will gather, as by instinct they do, to enjoy the cheery comfort of the fireside. There is no fireside in most of our modern houses. There are only holes in the floor or in the walls. And we are disposed to think that the good ventilation of the open fire adds not a little to the unconscious blessings of its hospitable and domestic influence. The sight of the little folks, as they sit musing and amused while the wood fire burns, and watching the fantastic flames and the glowing coals, is worth many times the cost of that cord of hickory or oak at city prices; and a wise household would rather part with the furnace which that bright blaze supplements and atones for than with the low grate which makes the family circle a real thing. Try it, ye who can, and see if the moral, æsthetic, and domestic power of this style of home comfort is over-estimated.—*The Science of Health.*

SIEGEL'S

CATAWBA GRAPE

EXTRA DRY

CHAMPAGNE

ACKNOWLEDGED to be the finest Champagne in the market, and pronounced by connoisseurs to be equal, if not superior, to foreign wines.

For fine flavor, elegant bouquet, and most perfect delicacy, combined with that exact degree of dryness, makes it the finest native Champagne now offered to the public.

Our Machinery, now on exhibition at **294 Broadway**, is silver-plated outside and inside. Our Wines are the best selected Ohio Catawba, and are guaranteed pure and free from adulteration.

I want to impress upon the mind of the public generally that California wine, not being a suitable wine for Champagne, it is not used in my establishment.

ASK FOR CATAWBA GRAPE EXTRA DRY CHAMPAGNE.

No connection with any other house in the city.

W. W. TUPPER & CO'S GRATE BARS

For Every Description of Steam Boilers,
206 WEST STREET, - - NEW YORK.

The following is one of the many testimonials of the merits of these superior Grates now in use in 19,000 different furnaces in the country :

AMOSKEAG MANUFACTURING COMPANY, Manchester, N. H., Feb. 6, 1876.

Messrs. W. W. TUPPER & Co., New York City :

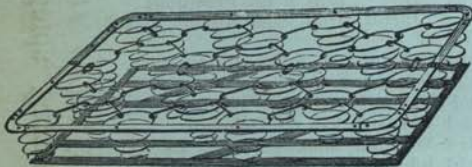

Dear Sirs—We have used your Grate in our furnaces during the last four years, and to-day we have no others in use. In durability and effective service I have never found a more satisfactory Grate. Although not using steam for power, we find that we require a consumption of about 10,000 tons of coal per annum for warming and drying purposes, and I have no hesitation in recommending your Grate as the best with which I have had experience.

Yours very truly,

E. A. STRAW.
